

Tetanus Toxioid Vaccination for Women

Announcement (22 / 2016)

NUST Health Services will conduct a clinic on Tetanus Vaccinations for female students and staff between the age of 15 and 49 years.

The objectives are:

- To prevent bacterial infections;
- sensitize women between the ages of 15 - 49 years about the importance of the vaccination which ensure safe motherhood;
- reduce mortality and morbidity rates; and
- increase access to Tetanus Vaccination information and services.

Dates: Tuesday, 17 May 2016

Venues: Nust Health Services

Time: 08:00 - 12:00

All students are welcome
