

POLYTECHNIC STUDENTS AGAINST CRIME (PolySAC)

PRESENTS

SAFETY TIPS FOR STUDENTS DURING EXAMS

1. Don't leave your personal items unattended; rather ask someone you know to watch over them. If there's no one you know, then take your items along with you.
2. When coming to write exams, don't bring valuables such as laptops, cellphones to campus, unless you are certain about the safety of where to leave your items.
3. Plan ahead of time; don't look for a place to leave your items in the last minute.
4. Hostel students, never leave someone alone in your room/flat.
5. When using lockers, make sure that you lock it with a quality padlock. Poor quality padlocks can be opened by almost every key.
6. Save your life, instead of saving money. If you know it will be unsafe to walk from the taxi rank to your house at night, pay extra and you will be dropped home.
7. Provide your guardians with your exam timetable, so they know which time they can expect you home.
8. Always have your relatives cellphone numbers on a piece of paper, in case your phone battery dies.
9. Carry a personal alarm with you (for example, pepper spray).
10. Do not accept lifts from strangers, even if they are nice.
11. Do not travel alone, always travel in pairs.
12. Report anything suspicious to campus control or dial 2112 or 10111 to report a crime.
